

EMILY X. SMITH

ILLUSTRATOR AND GRAPHIC DESIGNER

Although "Graphic Designer" is on here, I believe that I bring far more titles than that one alone. Graphic design and art is where my creative journey has guided me and it led me down a path centered around concept and story design with a strong interest in animation. My greatest wish is to be behind the scenes, building the blocks of a larger story or world. If that means being a background artist, creating concept work, or in-betweens for character shots, it would be a dream come true.

WORK EXPERIENCE

Arthur Elliott Marketing Group

2024
